

To access the course materials, please follow the following instructions as shown in the above diagram and explained in the paragraph below with respective numbers.

1 – Type <https://camedu.org> in the URL.

2 – Click on Log in button. It will open a new page. Type username and password as you have received from your school. If you have purchased our materials from our website, use the username and password you have created during the registration.

3 – Click on left side dark grey arrow, it will expand and show the Navigation and Administration tab.

4 – Under Administration there are options of changing password and profile. It is highly recommended that you change your password once you have logged in first time. You can change your profile and other details under the administration menu.

5 – You can access all your learning materials under My courses. Hover over your mouse on my courses, it will expand then you click on your subject, it will take you on a new page with all topics listed of that subject. Click on the topic you want to learn, it will expand with learning materials of video, assessment I and assessment II. Click on your desired activity and enjoy your learning.

6 – To access the learning materials on your android and IOS devices, please click on the link as shown in 6 and follow the instruction. You need a good Wi-Fi connection to run the learning contents seamlessly.

7 – For any technical difficulty in log in and accessing the course materials please email us admin@camedu.org. We will assist you as soon as possible.
